Understanding of Campus Connection

	Campus Connection
Concept	<p>Campus Connection manages your schools/college's day to day activity. It allows interaction between students, teachers, and parents. This software very gracefully handles all the cycles of school functionality. The solution is web-based management system specially designed considering the exceptions and psychology of today's Parents and school /college management and challenges Schools/Colleges come across.</p> <p><u><i>The menu driven screens have detailed explanation and offer several options. The users need not be Programmers or database experts to benefit from this system.</i></u></p>
Who can Use?	<p>Any College,School,Convent. Means Any Educational Institution.</p>

Main Login Screen :

Different Login for Student and Staff

This is a login screen to Campus Connection software, here you will have two types of Login , One for Staff and other for student, to that User Name & password option.
